The Interdisciplinary Research Center for Humanities Education at the University of Silesia in Katowice and the Cathedral of the Slovakian Philosophical Faculties of the Matej Bel University in Banská Bystrzyca are pleased to invite you to the **1st edition of the Masters' Lectures** entitled *Let's Make a Good Climate. Science and Climate* on January 14, 2021 from 13.00–15.00. The event is organized as part of the *V4 Humanities Education for Climate project. Recognitions – good practices – recommendations* and will be conducted online on the Teams platform.

The program includes a series of master lectures by outstanding specialists in ecology, environmental humanities and education for the climate:

prof. dr hab. Ewa Bińczyk (Nicolaus Copernicus University in Toruń)

Pro-environmental Rethoric at the Beginning of the 21st Century

prof. dr hab. Małgorzata Kita (University of Silesia in Katowice)

The polyphonic of the nature and the climate discourse

dr Ryszard Kulik (Laboratory for All Beings)

Man against nature

prof. dr hab. Piotr Skubała (University of Silesia in Katowice)

On the way to the Symbiocene

Participation is free of charge. Prior registration is required. All you have to do is to write to the following address by **10.01.2021: rejestracjaV4@us.edu.pl**, after that you will receive a link do the registration form and a link to the meeting.

Interested persons will receive a certificate of participation in the 1st edition of Master Lectures.

We encourage you to participate in the meeting, because it is educational activities that have a huge impact on the "good climate" for the future.
